ELSEVIER Journal of Materials Processing Technology 53 (1995) 897–901

Journal of Materials Processing Technology

Contents of Volume 53

Vol. 53, Nos. 1–2, August 1995

Selected papers from the 14th International Scientific Conference on Advanced Materials and Technologies, Gliwice, Poland, May 17–21, 1995

Organizers of the Conference vi

Collaborating Institutions vi

Organizing Committee of the Conference vi

Secretariat vi

International Programme Committee vi

Preface vii

Computer based data acquisition for welding research and production 1
S.C. Absi Alfaro (Brasilia, Brazil), K.S. Chawla, J. Norrish (Swindon, UK)

Structure evolution during hot deformation of a C-Mn-V-N steel grade 15
J. Adamczyk (Gliwice, Poland), M. Carsi (Madrid, Spain), R. Kozik, R. Wusatowski (Gliwice, Poland)

Interaction of carbonitrides V(C,N) undissolved in austenite on the structure and mechanical properties of microalloyed V-N steels 23
J. Adamczyk, E. Kalinowska-Ozgowicz, W. Ozgowicz, R. Wusatowski (Gliwice, Poland)

Protective coatings on high temperature steel applied by PVD deposition techniques 33
M. Andritschky (Braga, Portugal)

Determination and use of the forming limit stress diagrams in sheet metal forming 47
R. Arrieux (Annecy, France)

The role of bainite in shaping mechanical properties of steels 57
A. Barbacki (Poznań, Poland)

Gauge reduction in twin-roll casting of an AA5052 aluminium alloy: the effects on microstructure 65
B.S. Berg, V. Hansen, P.T. Zagierski (Oslo, Norway), M.L. Nedreberg (Håvik, Norway), A. Olsen, J. Gjønnes (Oslo, Norway)

Inhomogeneities of microstructure evolved in metals under plastic deformation 75
M. Blicharski, S. Dymek, M. Wróbel (Kraków, Poland)

Fully three-dimensional thermomechanical analysis of steel welding processes 85
A. Carpinteri (Parma, Italy), C. Majorana (Padua, Italy)

The effect of high temperature exposure on the structure and oxidation behaviour of mechanically alloyed ferritic ODS alloys 93
A. Czyrska-Filemonowicz (Kraków, Poland), D. Clemens, W.J. Quadakkers (Jülich, Germany)

Elsevier Science S.A.

Correlation between phase composition and life-time of 1Cr-0.5Mo steels during long-term service at elevated temperatures 101
J. Dobrzański (Gliwice, Poland), A. Hernas (Katowice, Poland)

Phase transformations during heat treatment of W-Mo-V 11-2-2 type high-speed steels with increased contents of Si and Nb or Ti 109
L.A. Dobrzański, A. Zarychta, M. Ligarski (Gliwice, Poland)

Correlation of the microstructure and the tensile deformation of Incoloy MA956 121
B. Dubiel, W. Osuch, M. Wróbel (Kraków, Poland), P.J. Ennis (Jülich, Germany), A. Czyrska-Filemonowicz (Kraków, Poland)

Rapid quenching and mechanical alloying of eutectic Ag Cu Sn alloys 131
J. Dutkiewicz, L. Lityńska, R. Świątek (Kraków, Poland)

The influence of thermal and mechanical treatment on the reactive stresses in TiNi shape memory alloys 139
P. Filip, K. Mazanec (Ostrava, Czech Republic)

The effect of some continuous casting parameters and microalloying elements on the effectiveness of controlling of austenite grain size 147
B. Garbarz (Gliwice, Poland)

Modelling of heat transfer, plastic flow and microstructural evolution during shape rolling 159
M. Głowacki (Kraków, Poland), R. Kuziak (Gliwice, Poland), Z. Malinowski, M. Pietrzyk (Kraków, Poland)

Behaviour of coated steel sheets in forming processes 167
J.Z. Gronostajski (Wrocław, Poland)

Inclusion control in high-performance steels 177
L.E.K. Holappa, A.S. Helle (Espoo, Finland)

Microstructure and texture of copper single crystal of (112) $[\bar{1}\,\bar{1}\,1]$ orientation undergoing channel- die compression at 77 K 187
Z. Jasieński, H. Paul, A Piątkowski, A. Litwora (Kraków, Poland)

Martensite transformation of quenched and aged austenite in N26MT2Nb steel 195
J. Jeleńkowski (Warszawa, Poland)

Effect of composition and microstructure on reversible losses of magnetic properties in Fe-Nd-B magnets 203
W. Kaszuwara, M. Leonowicz, S. Wojciechowski (Warszawa, Poland)

The frequency role on cyclic damage: reflection on electronic materials/devices 211
Y. Katz, M. Kupiec, A. Bussiba (Beer-Sheva, Israel)

Crystallization of superalloys with various contents of carbon 219
E.V. Kolotukhin, G.V. Tjagunov (Ekaterinburg, Russia)

The structure based design of metal forming operations 229
A. Korbel, W. Bochniak (Kraków, Poland)

Composite of austenitic-ferritic stainless steel 239
R.H. Kozłowski (Kraków, Poland)

In-situ TEM observations of the microstructural changes during early aging stages in Al-Li-Cu-Mg-$Zr_{(x)}$ alloys 247
J. Kusiński (Kraków, Poland), G. Thomas (Berkeley, CA, USA)

Microstructure control of ferrite-pearlite high strength low alloy steels utilizing microalloying additions 255
R. Kuziak, T. Bołd (Gliwice, Poland), Y.W. Cheng (Boulder, CO, USA)

Nitrogen in martensitic stainless steels 263
H. Leda (Poznań, Poland)

Recent advances in metal matrix composites 273
V.K. Lindroos, M.J. Talvitie (Espoo, Finland)

Numerical analysis of cast iron solidification process 285
E. Majchrzak, J. Mendakiewicz (Gliwice, Poland)

Hot working characteristics of steels in austenitic state 293
H.J. McQueen, S. Yue, N.D. Ryan, E. Fry (Montreal, Canada)

Simulation of the facture process of materials subjected to low-cycle fatigue of mechanical and thermal character 311
J. Okrajni, M. Plaza (Katowice, Poland)

Metallographic examination of catalyst gauzes and catchment gauzes from platinum and palladium alloys 319
Z. Rdzawski, L. Ciura (Gliwice, Poland), B. Nikiel (Warszawa, Poland)

The effect of strain localization on mechanical properties of A199,992 in the range of large deformations 331
M. Richert, A. Korbel (Kraków, Poland)

Characterization of carbide phase in nonledeburitic high-pressure steel containing Ti and Nb .. 341
J. Richter, M. Hetmańczyk, J. Cwajna (Katowice, Poland)

Dynamic recrystallization microstructures under hot working conditions 349
T. Sakai (Tokyo, Japan)

Application of resistance and acoustic emission measurements in fatigue tests of two phase $\alpha + \beta$ titanium alloys 363
J. Sieniawski, M. Gieroń, W. Ziaja (Rzeszów, Poland)

Influence of heat treatment on the properties of the free-cutting AlMgSiPb alloy 373
A. Smolej, M. Soković, J. Kopač (Ljubljana, Slovenia), V. Dragojevič (Slovenska Bistrica, Slovenia)

The removal of copper-phase segregation and the subsequent improvement in mechanical properties of cast 319 aluminium alloys by a two-stage solution heat treatment 385
J.H. Sokolowski, X-C. Sun, G. Byczynski, D.O. Northwood, D.E. Penrod, R. Thomas, A. Esseltine (Windsor, Ont., Canada)

Surface engineering: an enabling technology for manufacturing industry 393
K.N. Strafford, C. Subramaniam (Levels, SA, Australia)

Designing the brazed joint properties with application of amorphous tapes as a filler metal ... 405
D. Szewieczek, J. Tyrlik-Held (Gliwice, Poland)

Analysis of volume effects of phase transformation in titanium alloys 413
W. Szkliniarz, G. Smołka (Katowice, Poland)

Expert systems for metal forming 423
M. Tisza (Miskolc, Hungary)

Corrosion behaviour of P/M duplex stainless steels made from prealloyed and mixed powders . 433
J.M. Torralba, A. Monsoriu, J.M. Ruiz-Román, J.R. Ibars (Madrid, Spain), F. Velasco (Castellón, Spain)

Fracture as the result of self-organized damage process 441
L. Tóth (Miskolc, Hungary), A. Ya. Krasowsky (Kiev, Ukraine)

Modern steelmaking technology for special steels 453
R.V. Väinölä (Imatra, Finland), L.E.K. Holappa (Espoo, Finland), P.H.J. Karvonen (Imatra, Finland)

An unique feature of mechanical property of iron-nickel-manganese alloy 467
S. Watanabe, S. Sato (Tokyo, Japan), K. Miura (Okayama, Japan)

High-quality amorphous hydrogenated silicon carbide coatings by remote plasma chemical vapor deposition from a single-source precursor 477
A.M. Wróbel (Łódź, Poland), S. Wickramanayaka, Y. Nakanishi, Y. Hatanaka (Hamamatsu, Japan)

Sinterability and wear behaviour of P/M M2 high speed steel reinforced with NbC composite . 483
W.C. Zapata, C.E. da Costa (Joinville, Brazil), J.M. Torralba (Madrid, Spain)

Effects of tempers on environmental-assisted failure of an Al–Zn–Mg–Cu alloy 491
A. Zieliński (Gdańsk, Poland), E. Renauld, M. Puiggali, J.M. Olive, M. Cid, D. Desjardins (Talence, France)

Refining of the copper and investment casting 499
M. Žitňanský (Trnava, Slovak Republic)

Author Index of Issues 53/1–2 509

Vol. 53, 3–4, September 1995

Stress analysis of the precision forging die for a bevel gear and its optimal design using the boundary-element method 511
M. Fu, B. Shang (Nanchang, People's Republic of China)

An investigation of chip types in grinding 521
P.-L. Tso (Taiwan, ROC)

The effects of grinding parameters on the strength and surface finish of two silicon nitride ceramics 533
B.P. Bandyopadhyay (Grand Forks, ND, USA)

Rolling-deformation characteristics of clad materials determined by model experiments and numerical simulation: Numerical simulation of clad rolling by the rigid–plastic FEM 544
A. Segawa, T. Kawanami (Ishiwaka, Japan)

Neural network approach to flow stress evaluation in hot deformation 552
K.P. Rao, Y.K.D.V. Prasad (Kowloon, Hong Kong)

Fractal and DDS characterization of diamond wheel profiles 567
T. Warren Liao (Baton Rouge, USA)

Determination of ductile fracture (ductility) at any stress state by means of the uniaxial tensile test 582
H.-K. Oh (Soowon, South Korea)

A method for characterization of machine-tools dynamic parameters for diagnostic purposes .. 588
V.L. Zakovorotny, I.V. Ladnik (Rostov-on-Don, Russia), S.G. Dhande (Kanpur, India)

Comparison of torsion and plane-strain compression for predicting mean yield strength in single- and multiple-pass flat rolling using lead to model hot steel 601
S.F. Wong, P.F. Thomson (Clayton, Australia), P.D. Hodgson (Mulgrave, Australia)

Modeling of pressureless constant heating rate sintering of ceramic matrix composites 617
L.R. Dharani, Yanglu Zhao, Wei Hong (Rolla, MO, USA)

Simulation for the prediction of surface-accuracy in magnetic abrasive machining 630
J.-D. Kim, M.-S. Choi (Taejon, South Korea)

An elasto-plastic finite-element simulation of successive UO-bending processes of sheet metal .. 643
Y.-M. Huang, D.-K. Leu (Taiwan, ROC)

Introduction of anisotropy in viscoplastic 2D and 3D finite-element simulations of hot forging . 662
P. Montmitonnet, J.L. Chenot (Cedex, France)

Deep drawing of round cups from tailor-welded blanks 684
M.A. Ahmetoglu, D. Brouwers, L. Shulkin, L. Taupin, G. L. Kinzel, T. Altan (Columbus, OH, USA)

An approach to the modelling of contact friction during rolling 695
A.I. Baltov, A.G. Nedev (Sofia, Bulgaria)

A method for the evaluation of lubrication using injection upsetting 712
T. Nishimura, T. Sato, K. Hoke, Y. Tada (Tokushima, Japan)

Evaluation of frictional conditions for various tool materials and lubricants using the injection-upsetting method 726
T. Nishimura, T. Sato, Y. Tada (Tokushima, Japan)

An analytical approach for determining the environmental impact of machining processes 736
A.A. Munoz, P. Sheng (Berkeley, CA, USA)

Failure and wrinkling criteria and mathematical modeling of shrink and stretch flanging operations in sheet-metal forming 759
C.-T. Wang (Warren, MI, USA), G. Kinzel, T. Altan (Columbus, OH, USA)

A comparison of the fracture behaviour of 36CrNiMo4 steel from industrial heats differing in sulphide type 781
S. Stachura (Częstochowa, Poland)

A mechanics model for sheet-metal stamping using deformable dies 798
L.C. Zhang (NSW, Australia)

Ultrasonic vibration pulse electro-discharge machining of holes in engineering ceramics 811
J. Zhixin, Z. Jianhua, A. Xing (Jinan, People's Republic of China)

Deformation analysis of large-sized autobody panels 817
E. Spisak (Kosice, Slovak Republic), F. Stachowicz (Rzeszow, Poland)

Specifying and optimizing of the thermomechanical conditions during the extrusion of reinforced $AlCu_4Mg_1$ bars 827
G.G. Petzov (Varna, Bulgaria)

Four-point bending of a molybdenum-free titanium carbonitride cermet 837
S. Zhang (Singapore, Singapore), S. Jana (Singapore, Singapore)

Aspect ratio, friction forces and normal forces in strip rolling 846
J. Jeswiet (Kingston, Ont., Canada)

Processing and properties of Al–Al_2O_3 (TiO_2) in situ particle composite 857
P.C. Maity, P.N. Chakraborty (Ranchi, India), S.C. Panigrahi (Kharagpur, India)

A study of the superplastic isothermal deformation behavior of aluminium alloy LY12 871
L. Runguang, Z.R. Wang, L. Haihua (Harbin, People's Republic of China), M. Erjian (Beijing, People's Republic of China), Z. Xiyu, D. Shaoping (Beijing, People's Republic of China)

Analysis of heat-affected zone formation for laser cutting of stainless steel 879
P.S. Sheng, V.S. Joshi (Berkeley, CA, USA)

The publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors. A leaflet describing our requirements is available from the publisher upon request.
